

RAPIDCLEAN™

REVOLUTIONARY SAFE & HYGIENIC GRATE MAGNET SOLUTION

Product security for outgoing products, the RAPIDCLEAN™ RE80™ magnetics unit can be installed on:

- Inlet & exit of rotary valves
- Discharge of screw conveyors, elevators, flowveyor and blenders.
- Upstream of all packing operations and bulker filling.

Currently used in:

- FLOUR MILLS
- RICE MILLS
- SUGAR PRODUCTION
- GRAIN PRODUCTION
- INGREDIENTS MANUFACTURE
- DAIRY PROCESSING
- BULK OUT LOADING

The simple answer for regular cleaning and collection of magnetics for interpretation.

Effective 'Push Wiper' can eliminate unhygienic hand contact and injuries caused by sharp metal fragments.

RAPIDCLEAN™

VERSATILE & EASILY CLEANED RE80™ MAGNETICS

- Ledge free housing interior.
- Swing up magnet feature is robust, compact, safe and self supporting.
- Engineered spanner free, quick release magnetic door closure - provides even door seal pressure - seal presses into groove.
- Magnetics fall into suitable container or onto magnet cleaning magnet.
- Non magnetic ends protected from product flow.
- Energy and magnetic design maximises extraction of weakly magnetics such as rust, work hardened SS and magnetic stone as well as ferrous tramp.
- Variable bar centres to suit product flow.
- Optional vibrator retrofit.
- RE80™ or RE80™ HT Ultra High Energy Magnet Element options.
- Withstands cleaning temperatures to 150°C - Safe to hot water blast (HT models).
- Magnet bars are both seal welded and vacuum encapsulated with resin for extended magnet strength life.
- External drawer support slides for hygienic sensitive applications such as dairy and baby food powders and hygroscopic products.

Only 175mm head height required

Protection for
- SMALL PACKS
- BAGGED PRODUCTS
- BULK

NO SLEEVES TO JAM AND NO LIFTING
ALLOWS EITHER "HANDS FREE" OR FREE END CLEANING.
